Poll #1: Which region of the country do you live in?

- Midwest
- Northeast
- Southeast
- Southwest
- West

Objectives

- Understand the What Works in Youth HIV mission and the purpose of the website.
- Understand how to navigate the website to locate resources.
- Understand how you can contribute resources and collaborate with What Works in Youth HIV.

Overview

- State of the Youth HIV Epidemic
- Secretary Minority AIDS Initiative Fund
- Introduction to JSI
- Project Goals and Overview
- Advisory Board
- Website Tour

State of Youth HIV Epidemic

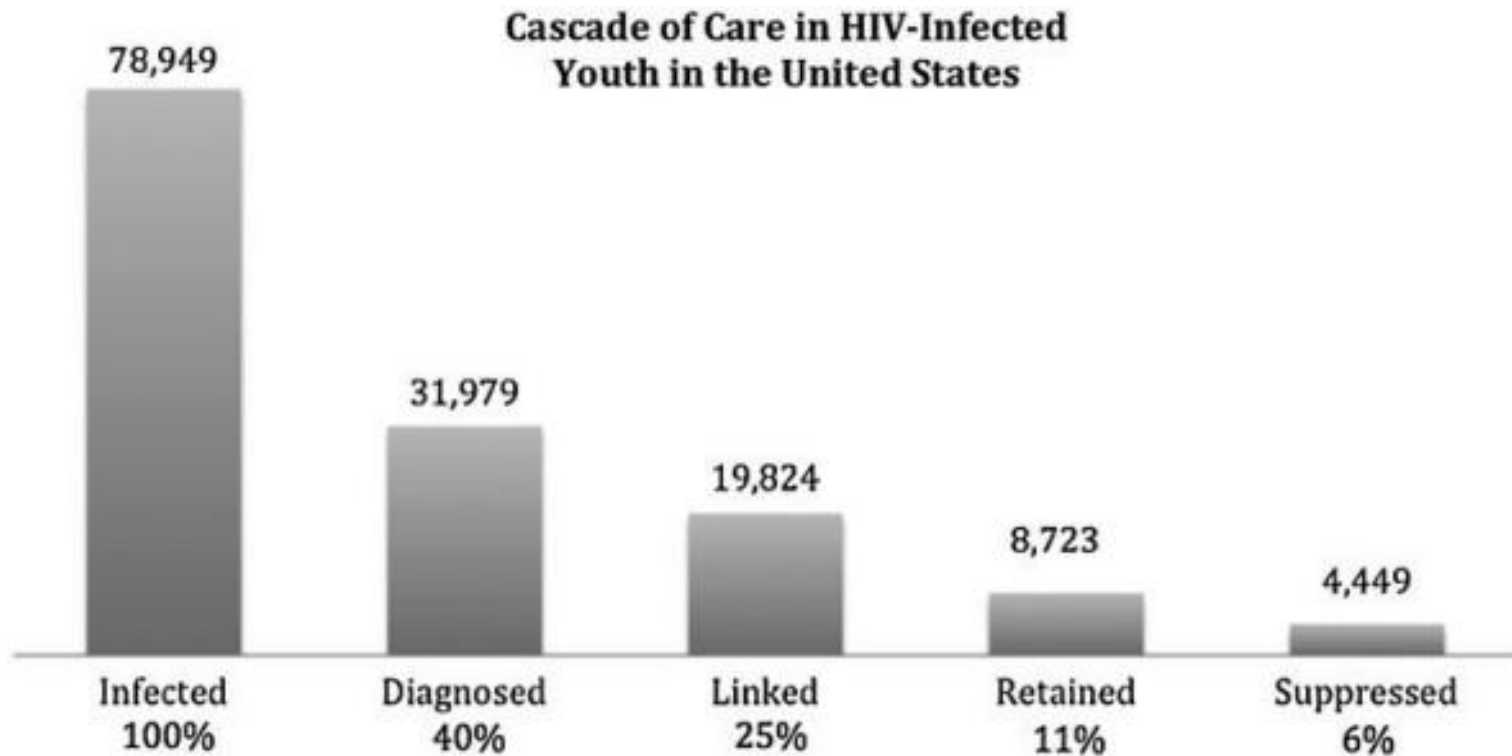

OVER
HALF
OF YOUTH 13 to 24
LIVING WITH HIV
DON'T KNOW IT.

Get the Facts. Get Tested. Get Involved.
gettested.cdc.gov

The graphic features a purple border and a light blue background. The text is arranged in several horizontal bands: 'OVER' in small blue letters on a yellow bar; 'HALF' in large, bold, blue, distressed-style letters; 'OF YOUTH 13 to 24' in bold blue letters on a yellow bar; 'LIVING WITH HIV' in bold yellow letters on a blue bar; and 'DON'T KNOW IT.' in bold blue letters. At the bottom, a purple bar contains the text 'Get the Facts. Get Tested. Get Involved.' and the website 'gettested.cdc.gov'. To the right of this bar are the logos for the U.S. Department of Health and Human Services and the Centers for Disease Control and Prevention (CDC).

WHAT WORKS
IN YOUTH HIV

State of Youth HIV Epidemic

Zanoni Brian C. and Mayer Kenneth H.. AIDS Patient Care and STDs. March 2014, 28(3): 128-135.

Secretary's Minority AIDS Initiative Fund

- The Minority AIDS Initiative was established by Congress in 1999
- Responds to the impact of HIV/AIDS on racial and ethnic minorities in the U.S.
- Secretary's MAI Fund (SMAIF), distributes resources on a competitive basis to HHS agencies and staff offices.

Project Funding: 2015-2018

WHAT WORKS
IN YOUTH HIV

JSI

JSI exists to improve the health of underserved and vulnerable people and communities throughout the world, and to provide an environment where people of passion and commitment can pursue this cause.

WHAT WORKS
IN YOUTH HIV

JSI

- Founded in 1978.
- JSI currently has 8 offices in the United States and in 53 countries.
- At any given time, JSI implements about 200 projects.
- There are approximately 150 staff employed by JSI who work on U.S. health issues.

ALYSSA THOMAS
Project Associate

ROLDOLFO VEGA
Evaluator & Advisor

Poll #2:

Which of these populations groups do you serve directly or indirectly?

- Young Teens (13-14 years)
- Teens (14-17 years)
- Young Adults (18-24 years)
- Homeless youth
- Incarcerated youth
- Youth in foster care
- LGBTQ youth
- Young MSM
- Youth living with HIV

The Issue

- Gaps in youth specific content on existing HIV prevention websites.
- Uncertainty around the workforce's knowledge and practices on current HIV prevention strategies .
- Youth-serving workforce members have limited professional development opportunities.
- Need additional capacity to use digital tools to reach and teach youth.

Purpose

- Support and promote interventions and strategies to better integrate HIV prevention services focused on adolescents within racial and ethnic minority populations.
- Promote evidence-based and evidence-informed programs and promising practices.
- Link to training and technical assistance opportunities, with particular support for social marketing, social media, and education campaigns.

Goal

To advance best practices to improve the health and well-being of America's adolescents by providing **innovative and practical** content that makes youth-serving providers and peer leaders feel empowered to meet the needs of youth at highest risk for HIV/AIDS.

Audience

Adolescent Health Workforce

- Health educators
- Classroom teachers
- Clinicians
- Program facilitators
- Program administrators

Peer Leaders

Parents

General information seekers

Advisory Board Members

Jennifer Augustine, MPH
Advocates for Youth

Opportunities for Collaboration

Resource Recommendations

- What's in your toolbox?
 - One pagers
 - Training guides
 - TA opportunities (in-person or online)
 - Adaptations (race, gender, ethnicity)
- Do you know any current or former peer leaders, who are over 18, that we can interview this summer?

PlayForward: A game teaching risky health behavior to reduce HIV among teens

Stories from the Field

This is a caption style. It can have multiple lines and contain [links](#) if we need attribution the copyright can go.

Firstname Lastname | October 23, 2015

PlayForward is a video game app that teaches risky healthy behaviors among teens awareness. The app also helps combat real issues in teens such as depression and how to live and manage various conditions.

"PlayForward" is a video game app that teaches risky healthy behaviors among teens awareness. The app also helps combat real issues in teens such as depression and how to live and manage various conditions.
